Introducing Think Water Cadetship

Are you interested in a career in the Water Management industry? Whether it be installation, system design, services, administration or sales, you can achieve your career goals with Think Water.

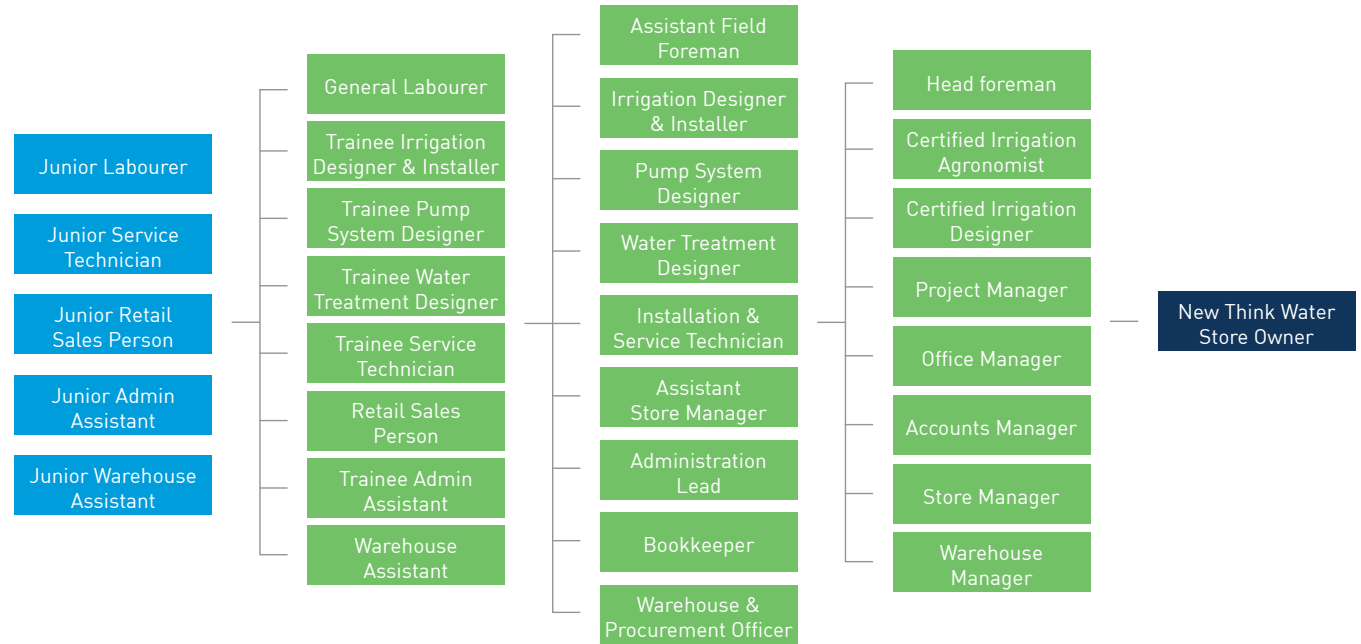

We encourage and support you, the younger generation to enrol in our training programs and start your Certificate III in Irrigation while completing your secondary education. We offer an opportunity for employment and education in a structured work environment.

As a progressive group Think Water embraces a core set of values:

- ✔ **Personal service.** We provide solutions, not products.
- ✔ **Supporting community.** Our stores are all locally owned and operated.
- ✔ **Promoting Excellence.** We are leaders in water efficiency and innovation.

A Cadetship with Think Water opens up many career pathways

We will assist and guide you to identify what your ideal job within the industry may be. The world is your oyster with so many career pathways and training options to achieve your goals.

The Cadetship Process

A Think Water Cadetship can be completed during the final 12 months of your secondary education. Following the completion of your Cadetship the duration of the overall training program varies dependent on your bespoke career pathway.
